Alumnae Homecoming Weekend is Friday and Saturday, May 12 and 13

Each and every alumna is cordially invited to return to the campus for the fun and festivities of this annual event. Ten classes are due to hold reunions—from the 5th to the 50th. These classes have already received special mailings and the chairmen have appointed classmates to help with details that will make each reunion more memorable for everyone.

Reunion classmates have been urged to write roommates and friends to gather their own clans together—what's a reunion without the people you want to see? But, *you* have to make it happen. Write or phone those you know best; track down those who have been silent through the years; do everything you can to get your group together at Mary Baldwin in May.

*It is fun to remember the way we were,
but more fun to find out who we are . . .*

Alumnae Homecoming Weekend can spark an exciting rediscovery of your Mary Baldwin friends—and yourself. The girls you remember are now community leaders, women with interesting careers, wives, homemakers, mothers, not to mention various combinations of these roles. What a collection of fascinating experiences and accomplishments! Multiply these by the years out of school—5 through 50—and you will find an infinite variety of life stories to explore, all with one element in common—Mary Baldwin College.

Two alumnae of '53 put it this way: "I think it would be very helpful for us to participate in an informal discussion of what life has been like for each of us and how Mary Baldwin College has helped prepare us or did not help enough."

"My happiness is that I am even more interested

in everything after six children and 25 years—and that is to my own astonishment!"

A weekend planned with you in mind

Crazy about house plants? Attend the "green thumb" seminar and shop for plants to take home. Enjoy music? Want to organize your life better? Like to sharpen your tennis techniques? Sometime during the weekend there is a session just for you. Reunion class alumnae were polled to discover what activities, seminars and social gatherings have the most appeal for Homecoming Weekend at Mary Baldwin. The suggestions were presented by our Alumnae Homecoming committee, the votes are now in and the schedule presents as many popular activities as the hours will allow.

The college will be in the midst of its new May Term, a spring version of the former January short term. It is also the weekend of the Fine Arts Festival when student artists and musicians are asked to display their talents. A major contribution to the Festival will be the fine exhibition of paintings by the New York artist, Judith Godwin, Class of '52.

Partying is part of the program and you will have the chance to visit and reminisce in a relaxed setting. Bring your husband with you—more and more Mary Baldwin husbands are attending Homecoming each year and there is no chance of his being the "only one." If your daughter is approaching college age, she has this special weekend opportunity to come to the campus and meet present students and the faculty.

Remember your class song? If you don't now, you will on May 12 and 13! Being together again will make this weekend really count for your class and for you.

Back to the classroom?

Every Mary Baldwin student has walked through the door of Academic as often as between Ham and Jam! The floors still creak and the smell of chalk is in the air to make memories of favorite courses and professors come rushing back when alumnae attend classroom seminars on Saturday, May 13.

A number of reunion questionnaire replies indicated an interest in the social and biological implications of being female, and Sue V. Rosser, assistant professor of biology, will conduct two seminars based on her popular course for students. Those with an interest in upgrading job market skills will have the opportunity to hear from one of Mary Baldwin's newest staff members, Dorothy H. Geare, director of the Women's Center and Career Planning and Placement Office. Yet to be announced are the experts who will provide information on estate planning and time management techniques, but it is planned to involve knowledgeable alumnae in these two presentations.

On Saturday afternoon Bonnie Hohn, assistant professor of biology, will help your brown thumb turn gloriously green. If tennis is your game, Sylvia Baldwin '76 will upgrade your skills and your score. Before coming to Mary Baldwin College as an admissions counselor, she was the tennis pro at the Four Seasons Swim and Racquet Club in Charlottesville, Virginia. After instruction there will be plenty of time to play, and doubles and singles matches can be arranged.

More alumnae voted for a walking tour of Staunton than any other event, so if this is your choice for Saturday afternoon, bring your walking shoes. William T. Frazier, executive director of Historic Staunton Foundation, will conduct the tour, with fascinating information about the history and architectural styles of the familiar buildings.
